

Skyfire™ Full Size LED Lightbar

- **Value priced LED lightbar specifically designed for the Amber market**
- **Offered in 3 lengths:** 48", 55" & 60"
- **Premium Gen3 LED Fusion Technology** - made with the same modules as our popular Pinnacle™ Mini lightbar
- **Strategically positioned 40° module placement** on the end caps provide an optimum level of off angle performance - critically important at dangerous intersections
- **Multiple module configurations** with optional front Work Lights, rear Take Down lights or rear Red LED Stop/Tail/Turn modules available
- **Work Lights & Take Downs** offered in LED or a cost saving Halogen option (lightbar is not available with an alley light option)
- **Uninterrupted signal across the entire length** - Work Light & Take Down modules are mounted below the warning modules for a full signal
- **Work Light optics are angled down 8°** to illuminate the rear work area or last 8 feet of a tow truck bed for greater visibility in the dark
- **Smart Mirror Reflectors** enhance & brighten signal
- **Field configurable** - outer dome is easy to remove & modules can quickly be modified if needed
- **3 mounting options:** Low Profile Fixed, Headache Bracket or Flat Mount (hardware only)
- **Available in Clear Lens with Amber, Blue, Red or White LED modules**
- **All LED Modules feature a 5 Year No Hassle Warranty while Halogen Work Light/Take Modules have a 1 Year Warranty period**

Offers a full uninterrupted signal with LED Work Light, Take Down or Stop/Tail/Turn options.

Intensely bright white LED Work Lights illuminate the rear of the vehicle when needed.

Strategically positioned 40° modules offer critical intersection warning & maximum off angle output.

Amber LED Skyfire lightbar mounted on a wrecker/tow truck. GHOST™ Edge Mount & Universal UnderCover also shown.
